THANK YOU FOR ALL YOUR SUPPORT

What is Matched Giving?

Matched Giving is a simple way to increase your fundraising impact. It's when your employer agrees to match the money you raise for Metabolic Support. Depending on your company's policy, they may match a portion or even the full amount of your fundraising — meaning your total donation could be doubled at no extra cost to you!
We recommend checking with your HR department to see if your company offers a matched giving scheme and how you can apply.

What we need your employer to do.

We need your employer to complete and return this form so we can link their donation to your fundraiser.
Just ask them to complete the employer details section of the form, marking with an 'x' to show how they'd like to make their donation. Then return the form to us by email or post:
If donating by BACS or another online platform
scan your completed form and email it to sam@metabolicsupport.org

If donating by cheque post your cheque and completed form to:
